

SAVE ENERGY SAVE MONEY

This spring **500** Households in **Uptown** and **Oakland** will receive *free energy-saving tools and tips* through participation in a one-year **energy saving** challenge

**SIGN UP BY
APRIL 30 TO
MAXIMIZE YOUR
SAVINGS!**

Participate in the Energy Efficiency Challenge – Starting May 1

Sign up to receive 12 free Do-It-Yourself energy efficiency tools for participation in a 12-month energy efficiency challenge. Share your utility bill with our team, and you will get information and guidance from your own neighbors on ways to lower your energy bills.

Apply for Free Home Weatherization Plus Services – April 30 Application Deadline

Apply for additional free weatherization services (like air sealing and insulation) to make your house even more energy efficient. To qualify, you must own your own home and be a non-smoker. After the work is complete, you will be able to showcase the improvements through data sharing or a home tour.

Get Involved: Be an Energy Coach – Still Accepting Applications

There are still ways to get involved in the program! Energy Coaches attend free training and planning sessions to design program rollout to their neighborhoods, organize tip and tool distribution, and gather feedback from participants.

This project is made possible in part by funding from the R.K. Mellon Foundation and The Heinz Endowments
